Easy fleet management with

EDGE PLUG 'N' GO

With Edge Plug 'n' Go, you have a vehicle tracking system that's easy to set up and simple to manage. So you can keep everyone on track and your assets moving.

WHAT IS EDGE PLUG 'N' GO?

Edge Plug' n' Go is an ultra-small OBDII plug and tracking device with GNSS, GSM and Bluetooth connectivity for a true connected car application. It is a perfect tracker for a wide range of use cases – including fleet management of light commercial vehicles, driver log-book, insurance telematics (UBI), car rental & leasing and more.

The Plug supports crash detection functionality that allows the user to be notified when a car crash happens. By using the accelerometer data received during the crash, it is possible to visualise the angle and measure the force with which the vehicle was hit. This could prove to be useful in insurance Telematics solutions. The device supports various Bluetooth low energy sensors, beacons, hands-free headsets, firmware and configuration updates via Bluetooth.

The Plug is a great choice for someone looking for a practical OBD solution.

It is a simply plug and play installation with no tools or mechanic needed and you can manage your fleet through an online portal on your desktop, tablet or mobile phone.

Just plug in and start tracking!

HOW CAN IT HELP MY BUSINESS?

PROTECT YOUR ASSETES

When your fleet is the heart of your business, you need to keep an eye on them 24/7. With the portal available online from any device, you get realtime activity views so you can check on your fleet day or night.

KEEP YOUR COSTS DOWN

Save time and money with Edge Plug 'n' Go as it can deliver mileage and expenses reports straight to your desktop. It's also smart enough to tell you if there are any issues with the engine and it'll highlight fuel usage per driver, allowing you to pin-point where to focus your driver training.

KEEP YOUR CUSTOMERS HAPPY

Keep your customers updated on arrival times and allocate jobs intelligently to the nearest drivers, avoiding jams and allowing them to get to your customers faster.

WORK SMARTER

No need for paper based logs and reminders, or white boards for all your lists. With everything online in the portal you can easily manage every aspect of your fleet, freeing up time to focus on other areas of your business.

For a free, no obligation demo of the platform, or to find out more about how our Telematics can help your business, get in touch:
